

## § 1650.3

## 5 CFR Ch. VI (1–1–03 Edition)

### § 1650.3 Frozen accounts.

A participant may not withdraw any portion of his or her account balance if the account is frozen as a result of a pending retirement benefits court order, an alimony or child support enforcement order, a child abuse enforcement order, or as a result of a freeze placed on the account by the Board for another reason.

### Subpart B—Post-Employment Withdrawals

#### § 1650.10 Single payment.

A participant can withdraw his or her entire account in a single payment.

#### § 1650.11 Monthly payments.

(a) A participant can withdraw his or her account balance in two or more substantially equal monthly payments, to be calculated under one of the following methods:

(1) *A fixed monthly payment amount.* The amount must be at least \$25 per month and must satisfy any minimum distribution requirements. Payments will be made each month until the account is expended. If the last scheduled payment would be less than the chosen amount, it will be combined and paid with the previous payment;

(2) *A fixed number of monthly payments.* The participant's month-end account balance for the month preceding the month of the first payment will be divided by the number of payments chosen in order to determine the monthly amount. The amount must be at least \$25 per month and must satisfy any minimum distribution requirements. In January of each subsequent year, the TSP will divide the December 31 account balance from the prior year by the remaining number of payments in order to determine that year's monthly payments. If the monthly payment amount is less than \$25, it will be increased to \$25. This process will be repeated each year until the account is expended; or

(3) *A monthly payment amount calculated using the factors set forth in Internal Revenue Service expected return multiply table V, 26 CFR 1.72–9.* There is no \$25 minimum monthly payment under this method. In the year pay-

ments begin, the monthly payment amount is calculated by dividing the month-end account balance for the month preceding the month of the first payment by the factor from table V based upon the participant's age as of his or her birthday in that year. This amount is then divided by 12 to yield the monthly payment amount. In subsequent years, the monthly payment amount is recalculated each January by dividing the December 31 account balance from the previous year by the factor from Table V based upon the participant's age as of his or her birthday in the year payments will be made. That amount is divided by 12 to yield the monthly payment amount.

(b) A participant who chooses to receive monthly payments calculated using one of the three methods set forth in paragraph (a) of this section cannot change the method after payments begin. Also, except as provided in paragraph (c) of this section, the participant cannot change the number of payments or the payment amount after payments begin.

(c) A participant receiving monthly payments can choose to receive the remainder of his or her account balance in a final single payment.

(d) A participant receiving monthly payments may invest his or her account balance as provided in 5 CFR part 1601.

#### § 1650.12 Annuities.

(a) A participant can withdraw his or her entire account balance in the form of a life annuity. The participant's account balance must be \$3,500 or more in order for the TSP to purchase an annuity. The TSP will send forms to a participant who chooses this method which ask him or her to choose an annuity method, name a beneficiary (if required), and provide any necessary spousal waiver or spousal information. Upon receipt of the required information, the TSP will purchase the annuity from the TSP's annuity vendor using the participant's entire account balance, except for any amount necessary to satisfy minimum distribution requirements. The first annuity payment will be made approximately 30 calendar days after the purchase of the annuity. The annuity will provide a
